CONDENSED CATALOG

of Hardy Plants for
The Home Garden

Hardy Perennials

Rock Garden Plants

Wisconsin Wild Flowers

From

W. A. TOOLE, *of Garry-nee Dule*

Baraboo, Wisconsin

To Our Flower Loving Friends

Due to present uncertain economic conditions, our catalog is much abridged this year. The plants described are greater in variety than ever before and many new and rare kinds are listed. The quality of our plants has been maintained at the usual high standard.

Prices are quoted in two columns. The first column is for plants that have been established in small pots and are ready to quickly take root in their new home. Customers have found these smaller potted plants very economical and especially suited to planting in rock gardens where they readily adjust themselves to the irregular spaces among the rocks. The second column prices cover transplanted field grown plants or clumps.

Varieties marked * are suited to use in rock gardens.

Many larger varieties may also be used in larger rock gardens, often in the background. Many of those classed as rock garden plants are also much used in the foreground of perennial borders.

We guarantee these plants to reach you in good growing condition. Complaints must be made within ten days of receipt of plants. We do not guarantee growth or hardiness of these plants other than above.

We are constantly checking our plants to insure correct nomenclature but mistakes sometimes occur. We are always ready to replace plants found untrue to name.

TERMS: Cash with order, which includes packing and delivery charges. **MINIMUM ORDER \$1.00.**

PRICES: 12 of one variety at the price of 10; 6 or more of a kind take dozen rates. Write for quotations on large quantities.

Golden Anniversary Offering

It was in 1884, just fifty years ago, that my father distributed his first price list of seeds and plants. To celebrate this occasion, we have decided to make a generous friendship offer. This is:

FOR EACH FULL TWO DOLLARS SENT WITH YOUR ORDER, SELECT EXTRA PLANTS TO THE VALUE OF FIFTY CENTS. This means if you send four dollars with your order, you select plants to the value of FIVE DOLLARS, and **REMEMBER, this price means TRANSPORTATION CHARGES PAID.**

VISITORS INVITED TO GARRY-NEE-DULE

Visitors are always welcome at Garry-nee-Dule where they will find a large rock garden, extensive perennial borders, a delightful Nature Trail and other features in addition to the nursery and greenhouses.

—W. A. TOOLE, of Garry-nee-Dule
Baraboo, Wisconsin

*Cortusoides—7-8 inches; bright rose; May-June	.25	Nevi—Pale green rosettes 1-2 inches high	.15
*Mistassinica—2-3 inches; pink; May	.35	Oppositifolium—3-4 inches; white; July-August; spurium group	.15
*Variabilis (English Primrose) — 6-8 inches; various colors; May	.15	Oregonum—3-4 inches; vivid green spatulate leaves	.15
—Sutton mixed. Many choice colors	.20	Pulchellum—6-8 inches; lilac rose; July	.15 .25
PULMONARIA (Lungwort)		Reflexum—5-6 inches; yellow; June	.15
*Officinalis—8-10 inches; spotted leaves; blue flowers; May	.25	Sedums of the reflexum, rupestre and anopetalum group all resemble varying types of little spruce branches.	
RUTA (Rue)		Reflexum Cristatum—A striking crested form of reflexum	.15 .25
*Patavina—5-6 inches; glaucous foliage; yellow flowers	.15	Reflexum Minor—Compact type with blue-green foliage	.15
SAGINA (Pearlwort)		Rupestre—Blue-green foliage, formerly sold as pruniatum fosterianum	.15
*Glabra—Bright green mossy growth for paved walks	.15	Sarmentosum—Free growing; creeping; light green foliage; yellow flowers	.15 .20
SALVIA		Sexangulare—Much like acre but finer and turns bronze in fall	.15 .20
Officinalis (Garden Sage)—Used for flavoring meats, sausages, etc.	.15	Sibericum—Leaves are tiny pear shaped beads of green	.15
SANTOLINA (Lavender Cotton)		Sieboldi—5-6 inches; rose; September. A very beautiful variety	.15 .25
*Incana—Aromatic silvery foliage. Not hardy here	.15	"Silver"—Probably a form of Hispanicum with especially attractive silvery foliage	.15
SAPONARIA (Soapwort)		Spectabile—12-15 inches; pink; August-September	.15 .20
*Ocymoides—Trailing; bright pink; May-June	.15	Spectabile Brilliant—12-15 inches; deep rose; September	.15
SATUREIA (Savory)		Spectabile Variegata—Leaves marked creamy white	.15
*Montana—6-8 inches; rose lilac; July	.15	Spurium—5-6 inches; pink; July	.15 .20
SAXIFRAGA		Spurium Coccineum—5-6 inches; crimson; July	.15 .20
*Aizoon—6-8 inches; white; June	.25	Stoloniferum—Like a delicate growing spurium	.15
*Cordifolia Megasea—10 inches; flesh rose; April-May	.25	Stribryni—A low-growing variety midway between acre and reflexum in style of growth	.15
*Decipiens Alba—Mossy; 2 inches; white; May	.15	Telephium—15-18 inches; rose purple; July	.15 .25
*Macnabiana—10-12 inches; white; June	.25	Ternatum—3-4 inches; white; May	.15 .25
*SEDUM (Stonecrop)		SEMPERVIVUMS (Hen-and-Chickens)	
All Sedums may be used in rock gardens		Sold as received by me, not guaranteed to be correctly named.	
Acre—2-3 inches; yellow; June-July	.15	*Arachnoideum—Green leaves connected by cobweb-like hairs. Red	.15 .20
Acre Aureum—Stems golden tipped spring and fall	.15	*Arenarium—A tiny variety with pointed leaves	.15
Acre Majus—Stiff upright leafy cylinders	.25	*Browni—Green rosettes tipped brown, medium size	.15
Acre Minor—About half size of type	.15	*Soboliferum—Round green globes tinting red in fall	.15
Acre Minus—Dense moss-like growth ½ to 1 inch	.25	*Calcareum—Evidently not true but a fine variety; velvety green flat rosettes 5 or 6 inches across; light greenish-yellow flowers	.15
Aizoon—8-10 inches; upright; yellow; July	.15	*Fimbriatum—A medium sized variety	
Album—4-5 inches; white; June	.15		
Album Brevifolium—Tiny, bead-like leaves	.15		
Album Chloroticum (Balticum) — Slightly larger than brevifolium	.15		
Album Murale—Rich bronze foliage	.15		
Album Tenuifolium—Slender leaves on floppy stems	.15		
Amplexicaule—2-3 inches; pinkish white; June	.15		
Anglicum—Silvery moss-like foliage	.15		
Anglicum Minus—½ inch; fat little green leaves on thread-like stems	.25		
Anopetalum—4-5 inches; yellow; July	.15		
Anopetalum Elegans—Blue green leaves of the reflexum type	.15		
Corsicum—See S. dasyphyllum glanduliferum	.15		
Dasyphyllum—2-4 inches; pinkish white	.15		

Price: 12 of one variety at price of 10; 6 or more of a kind at dozen rates. Write for prices on large quantities.

Virginiana—12-30 inches; blue; June-August15
TRILLIUM	
Grandiflorum—10-15 inches; white; May-June10
Nivale (Snow Trillium) — 2-3 inches; white April20
TYPHA (Cat-Tail)	
Latifolia—For pool or bog garden.....	.20
UVULARIA (Bellwort)	
Grandiflora—8-15 inches; yellow; May15
VIOLA	
Pubescens—6-12 inches; yellow; May.....	.15

Native Ferns

WOODLAND AND SWAMP FERNS INDIFFERENT TO SOIL REACTION OR PREFERRING CIRCUMNEUTRAL SOIL.

ADIANTUM

Pedatum (Maidenhair Fern)—Highly desirable. 1-2 feet.

ATHYRIUM

Felix-Foemina (Upland Lady Fern)—Attractive but spreads rapidly; 1-3 feet.

CYSTOPTERIS

Fragilis (Woodland Brittle Fern)—A low delicate ground covering plant; attractive but fronds short-lived; 6-8 inches.

DRYOPTERIS

Marginalis (Margined Wood Fern) — Evergreen; fine for holding soil on slopes; one of the best ferns for home gradens; 1-2 feet.

Spinulosa (Summer Woodfern)—Attractive, foliage more delicate than preceding; 1-2 feet.

OSMUNDA

Claytonianna (Interrupted Fern)—Large but highly desirable; 2-4 feet.

PTERETIS

Nodulosa (Ostrich Fern)—Fronds brittle, so plant where sheltered from wind; 2-4 feet.

ROCK FERNS INDIFFERENT TO REACTION OR PREFERRING CIRCUMNEUTRAL SOILS.

ASPLENIUM

Trichomanes (Rock-Maidenhair)—Fine on shaded, rather moist rock.

CAMPTOSORUS

Rhizophyllus (Walking Fern)—Worth growing in any cool, shady place.

CHEILANTHES

Feei (Lip-Fern)—Tiny, wooly leaved fern growing on sunny lime rock.

CYSTOPTERIS

Bulbifera (Bulblet Fern) — Attractive on shaded rocks.

PELLAEA

Atropurpurea (Cliff-brake)—Desirable for dry and even sunny situations.

POLYPODIUM

Vulgare (Rockcap Fern)—Desirable as a capping for any rock.

WOODSIA

Obtusa (Cliff-fern)—Adaptable to almost any rock situation.

ROCK FERNS PREFERRING OR REQUIRING ACID SOILS.

WOODSIA

Ilvensis (Rusty Cliff-fern)—Attractive on dry rocks of moderate acidity.

PRICES ON FERNS: 25c each; \$2.50 per dozen.

With each order for Ferns amounting to \$2.00 or more we will send a very interesting booklet on Native Ferns edited by Mrs. Kathryn E. Boydston, for sale at the Century of Progress. It contains articles by Mrs. Boydston, Dr. E. T. Wherry and other authorities on Ferns.

Price: 12 of one variety at price of 10; 6 or more of a kind at dozen rates. Write for prices on large quantities.
